

Help with opioid use begins here.

The WA Telebupe hotline connects you to medication that can help you cut back or stop opioid use.

Buprenorphine (aka bupe, Suboxone):

- Eases opioid withdrawal
- Reduces cravings
- Lowers your overdose risk

Talk to a provider for free today
and find out if bupe is right for you.

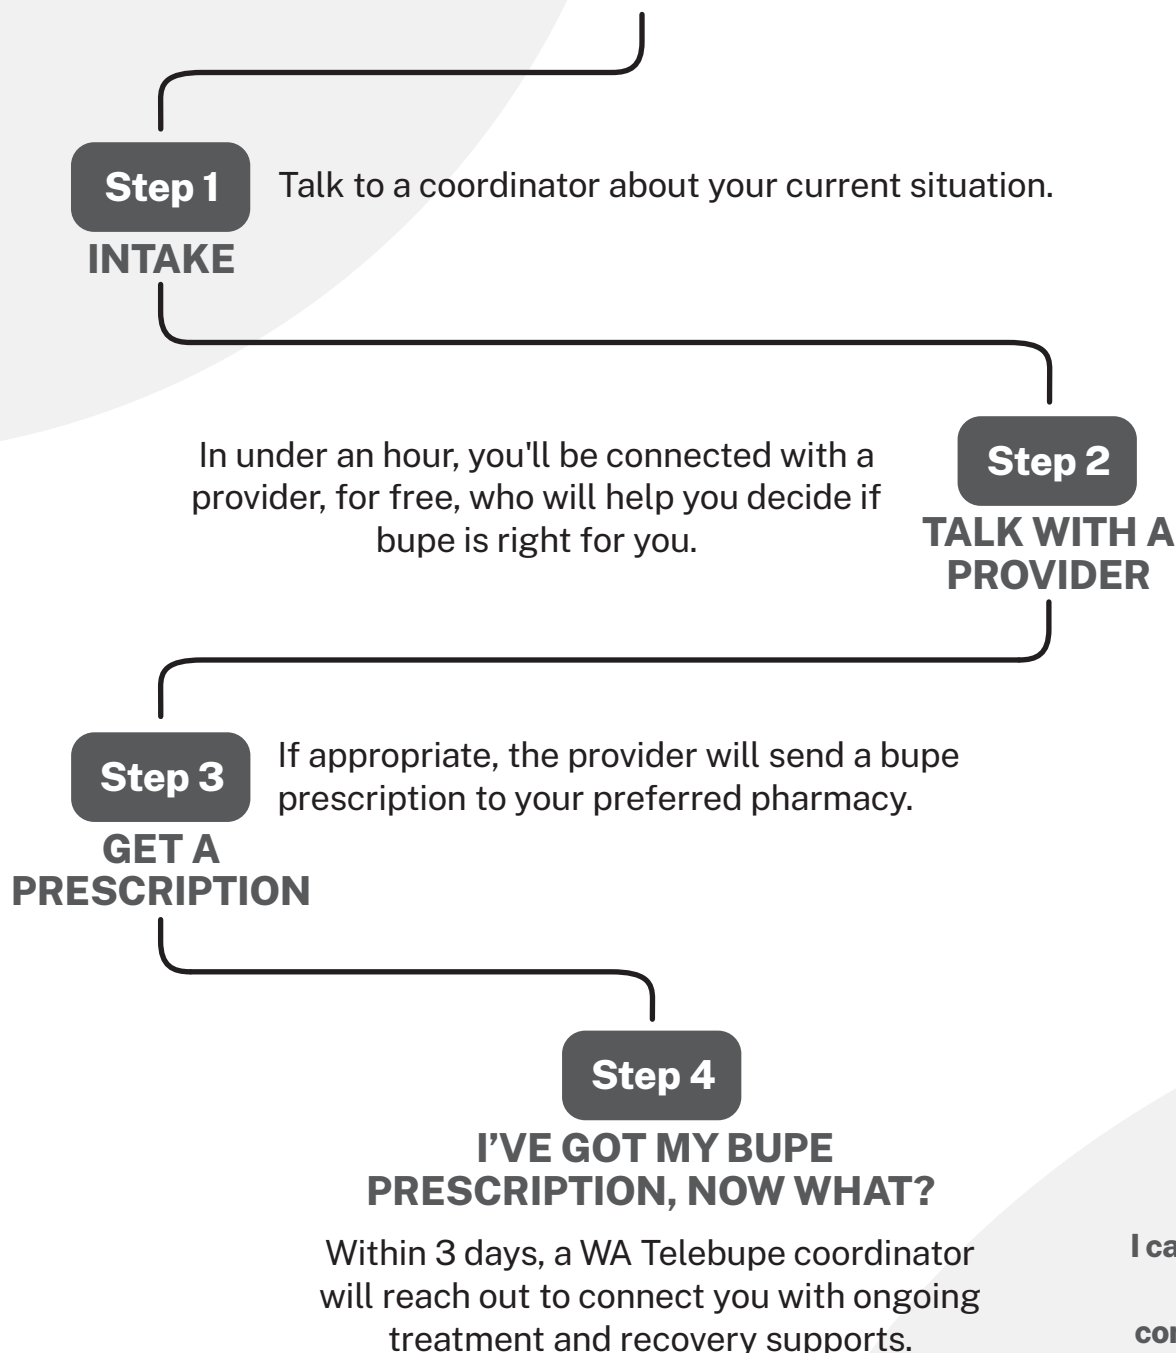

Call or text 206-289-0287

9am to 9pm, every day

WATELEBUPE
HOTLINE

If you're dealing with opioid use, please call or text the WA Telebupe hotline. You'll find confidential compassionate care with no judgment. **When you're ready, we're ready.**

What to expect when you call or text

**I called back because
I knew the kind of
compassion and care
I would get. I feel like
I owe my success in my
recovery to this program.**
